

Medical Forms

Instructions

All students entering the School District for the first time as well as students in grades kindergarten, second and fourth are required to have a physical examination by their physician completed within the calendar year. Enclosed in this folder is a 2 page Health Certificate to be completed by your physician. Your physician should sign and stamp page 2 of this form. All physical exams are due in the Health Office within 30 days of your child beginning school. A dental exam is requested for all students in the above mentioned grades. Attached to the Health Certificate is a dental form. In the event that this form is not available at the time of your appointment, please feel free to have your dentist document the appointment on his/her own form and return it to the health office. The Student Interval Health History & Update form should be completed by parents in order to keep the Health Office up to date on any changes that may have occurred since their last physical examination. Reminder letters will be e-mailed to all parents whose children have not submitted a Health Certificate. If a Health Certificate has not been received by the Health Office by January, your child will be examined by our School District Physician. It is always better to have the examination completed by your family physician who is aware of any health history and the immunization status of your child. Please feel free to contact the School Nurse, 516-203-3640 Ext 6480
